

OIL & GAS

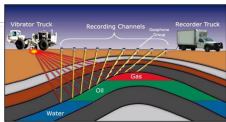

COMPANY OVERVIEW

AGF Group, LLC is a company founded in Houston, Texas to provide procurement solutions to Oil & Gas, transportation, mining, and construction industry. Our main goal is to deliver innovative solutions designed to meet our customers project requirements.

AGF count with a great business curriculum. The products distributed are reinforced by specialists who provide engineering and technical expertise support that allow to attend local and overseas market in regards to engineering, Equipment, Materials and spare parts.

Our excellent location gives us a competitive advantage. Since we have gained experience having access to a great variety of engineering firms, specific products, and spare parts. This help us to supply to our customers the best products under their specifications and accomplish the desire time.

INDUSTRY OVERVIEW

Explore & Appraise

- Asses potential leads, explore blocks & appraise discoveries.

Develop

- Develop commercial Oil & Gas fields or mines.

Produce

- Production and extraction of Oil & Gas and minerals.

Transport

- Transportation of raw materials via pipelines or ships.

Process

- Processing of raw materials into finished products.

Distribute & Market

- Distribution and marketing of finished products.

PRODUCT LINES

UPSTREAM SYSTEMS

Equipment

- Mobile Drilling Rigs
- Drilling Rigs
- Fast Moving Land Rigs
- Workover Rigs
- Coil Tubing
- Snubbing Unit
- Flush-by Rig
- Pulling Units
- Hot Oiler
- COROD

Rig Components

- Mast & Derricks
- Crowns Block
- Sub-structures
- Rotary Tables
- Top Drives
- Mud Pumps
- Hooks
- Swivels
- Traveling Blocks
- Kelly Quadrant Triple Pumps
- Blowout Preventer (BOP)

Auxiliary Equipment

- Sludge Handling Equipment.
- Water Tanks.
- Fuel And Waste Tanks.
- Vacuum Tanks.
- Riddles.
- Degassers And Pumps.

Drill String

- Drilling Pipes
- Drilling Collars
- Stabilizers
- Hole Openers
- Roller Reamers

Completion & Production

- Tubing Pipes
- Casing Pipes
- Conventional Sucker rods
- Continuous Sucker rods
- Drive head
- Variable Speed Drive - VSP
- Electric submersible pump
- Progressing cavity pump

Auxiliary Tools

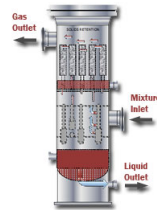

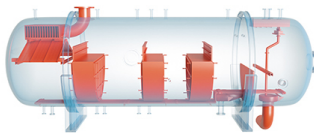

- Power Tongs
- Safety Valves And Adapters
- Grills Lift Elevators
- Fishing Equipment.
- Manifold Control
- Accumulators
- Hydraulic Winches
- Swab Equipment
- Pipe Wrenches
- Hydraulic Rebar
- Pipe Elevators
- Keyways Tires
- Drilling Fluid Manifolds Valves

MIDSTREAM AND DOWNSTREAM SYSTEMS

Early Production Facilities

Two and Three Phase Separation
Gas Sweetening Packages
Gas Dehydration Packages
Dew Point Control Units
Oil dehydration, desalting and heating
Produced Water Treatment Packages
Sand handling
Fuel gas processing
Flare systems
Fire and gas utilities
Tankage and shipping

Produced Water Treatment

Skimmer
Filtration
Sump Tanks
Injection Plants
Coalesces
Induced Gas Flotation
Degassers
Compact Flotation Unit
Deoiling Hydrocyclones

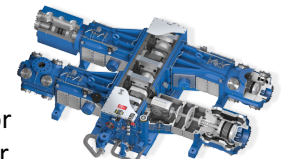

Production Equipment

High/Low Pressure Separators
Vertical and Horizontal Separators
Two and Three Phase Separators
Filter Separators
Coalescing Filter Separators
Vent Scrubbers
Slug Catchers
Coolers
Absorbers
Fuel and Instrument Gas Packages
Blowcases
Sales Gas Meter Runs

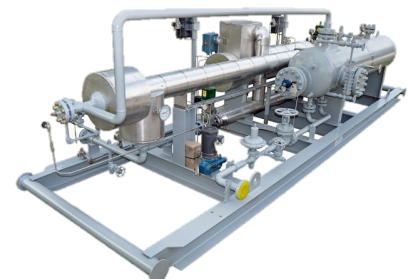

Oil Treatment

Mechanical Treaters
Electrostatic Treater
Oil Stabilization
Heater treaters

Gas Compression

Reciprocating Compressor
Rotary Screw Compressor
Specialized Applications
Variable Frequency Drives
Fuel Gas Conditioning Skid
JT Skids
Vapor Recovery Units

Process and Treating Equipment

High recovery cryogenic plants
Natural Gas Processing
Amine Treating
Mechanical Refrigeration
NGL Fractionation
Liquids Recovery
Condensate Stabilization
Crude Topping/Stabilization
Custom Designed Solutions
